

Summer Camp General Information

Who are the Guardians?

1, 2, 3, 4 ... 5 days dedicated to the protection of nature! In just one week the Guardians will learn that the smallest actions can lead to big changes to protect all species. And there are no better messengers than those who inhabit Zoomarine! Along this summer camp, and because knowledge is power, the Guardians will not only see up-close the great ambassadors of Zoomarine, but also the different teams that every day guarantee their well-being.

We challenge the most curious ones to join us in a week of discoveries, where the real stars are the animals.

Need More Information?

"Zoomarine's Guardians" is for children between the ages of **6** and **13**.

How many participants? **12** children.
