RE: ADRIAN 'DJ DUSTY' PAYNE

To Whom It May Concern

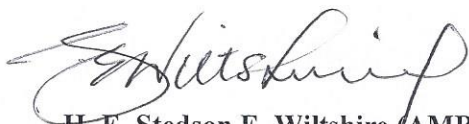

I have known and worked with DJ Dusty for over 15 years. It is always a satisfying experience to perform with him as my backing DJ because he aims to enhance the quality of the presentation. He is passionate about sound and always seeks to ensure he has the best possible to fit the venue of the events.

The most striking aspect of his work is the professionalism associated with it. Being on time and dressed appropriately are things that many deejays pay little attention to, but not Adrian Payne. His attention to detail is remarkable and he does not accept a job for the sake of working but is very careful about the nature and quality of the event. This is why I chose him to play for the Red Foundation events, which are charitable events which appeal to a wide cross section of people. He is versatile and consequently caters well to all audiences.

Recommending Adrian "DJ Dusty" Payne to any one is something I would do readily because his attitude towards his work would be an asset to anything with which he is associated.

Thanking you for providing DJ Dusty with this opportunity.

Sincerely,

H. E. Stedson E. Wiltshire (AMB, BJH, BSS)
