BOCANÁRIZ a MEETING PLACE for WINE LOVERS

Our selection aims to be a reflection of the Chilean wine production, a picture of the current wine scene.

This wine list offers all the grape varieties that are produced in our country, which we have classified according to the style of wine that each one represents: some of them with fruity expression, others of greater complexity and elegance, wines that come from a particular vineyard, organic and biodynamic wines; which are elaborated in harmony with the environment and the universe, signature wines; that have been handmade representing the place of origin or the interests of the winemaker; and the recognized and prestigious iconic wines.

We have 350 wines by bottle, which are kept at the proper temperature and humidity in our underground cellar.

We offer 36 wines by glass, all available in tasting format (50cc) or classical size (150cc).

You'll also find 13 different thematic tastings or "Wine Flights", through

three wine samples, you will be able to taste and understand the most important matters and trends of Chilean wines.

Our team, formed by passionate people for Chilean wine, are all sommelier and storytellers, and pretend that you also fall in love with Chile and its wines, telling and guiding you through the terroir, the valley, the grape variety, the character or the script you most like.

There are 350 stories to tell!

ERASMO
(CABERNET SAUVIGNON / CABERNET FRANC / MERLOT)
Maule Valley — \$220.000

The Italian Count Francesco Marone Cinzano arrives in Chile with the intention to find a unique terroir to produce quality wines and be able to continue with his ancestor's tradition. It was in 1997 when he started planting vines brought from France. This wine is entirely produced in the ancient estate of "La Reserva de Caliboro". It was named in honor to a local person who shared the local grape growing wisdom and helped to prepare the soil and plant the vines that were imported. Bottled in origin, Erasmo is a wine for aging, unfiltered and of limited production, conceived and realized with the friendship and consultancy of Maurizio Castelli.

SEÑA
(CABERNET SAUVIGNON / CARMÉNÈRE / MERLOT /
CABERNET FRANC / PETIT VERDOT)
Aconcagua Valley — \$780.000

Guided by intuition and backed by family heritage, Eduardo Chadwick and Robert Mondavi handcrafted a wine of distinctive quality and character. Motivated by the sustainable philosophy and even more importantly, by the desire to transcend time through a wine that has a unique personality, they adopted biodynamic agriculture with the objective of reflecting a deep and authentic sense of origin.

CONCHA Y TORO, DON MELCHOR
(CABERNET SAUVIGNON)
Maipo Valley — \$900.000

At the foot of the majestic The Andes Mountain in Puente Alto (Maipo Valley), is born one of the best Cabernet Sauvignon of Chile from one of the vineyard with more tradition and history of the country. One of the relevant factors in this extraordinary terroir is the cold influence of the Andes, which manifests itself in the form of cool breezes and a wide difference of temperatures between day and night. These conditions favour the slow and homogeneous maturation of tannins, along with the conservation of the just right amount of acidity, fresh red fruit and a higher concentration of color and aromas in the bunches.

It is a wine full of fresh red fruit mixed with mineral and graphite notes, resulting in a complex and diverse expression and its aromas. Its balance between refined tannins, the freshness in the mouth and the good concentration stands out the most in this wine.
