

## NOW BREWING OUR OWN CRAFT BEER

### PILSNER

This is a Lager of low fermentation, unique because of the hop bitterness which gives the beer a pleasant, delicately-tart taste. Our Pilsner is very similar to German beer, however in its preparation we use the best type of Czech hops!

**Initial density of the wort:**  
not more than 13%

**Alcohol content:**  
not more than 4.8%

**Ingredients:**  
Water, malt, hops, yeast

### VIENNA

Moderately bitter, balanced by a soft malt aroma, which has a light caramel taste, Vienna malt is used as a base with yeasts of low fermentation. That's why we called this beer Vienna.

**Initial density of the wort:**  
14%

**Alcohol content:**  
5%

**Ingredients:**  
Water, malt, hops, yeast

### HONEY

This beer is of low fermentation. Subject to all rules, Honey beer tends to have a yellow-amber colour with tender flower aroma, light shades of hops, lush foam and a bitter aftertaste. The taste is difficult to compare with other types of beer. Once tried you will be amazed!

**Initial density of the wort:**  
14.5%

**Alcohol content:**  
not more than 5.3%

**Ingredients:**  
Water, malt, hops, yeast

### DARK

This dark beer is of low fermentation. It is prepared from a mixture of special malts. It has a deep colour with lots of dark colour shades, dark roasted malt gives this beer a unique class tart, sweetness and special varieties of hops, adjusted to taste, and has an astringent bitter aftertaste. Only a true connoisseur can understand this beer!

**Initial density of the wort:**  
15%

**Alcohol content:**  
not more than 5.5%

**Ingredients:**  
Water, malt, hops, yeast
