

The Iconic Mixology Book

Our Creativity

Evolutionary Mixology

Throughout history, we've always gathered together to raise our glasses, a worldwide symbol of celebration. This practice has evolved and perfected over the years. Today's mixology has its personality which makes it unique, new ingredients mixed in a novel that elevates the experience for those who relish it. At Karma, we constantly look to innovate and tell our story in every cocktail.

Chapter 1

Mixology

KARMA is not fatalism or predestination, KARMA is our ability to change, it is creative because we can determine how and why we act.

"KARMA creates everything like an artist, KARMA composes, like a dancer."

Chapter 3

The Road to Enlightenment

Foundations

Wisdom that does it all

"We can start here and now, to find meaning in life. We can make every moment an opportunity to change and prepare ourselves wholeheartedly with precision and serenity, for death and eternity..."

Our inspiration is based on the selective wisdom of nature and its potential to make everything already achieved and spontaneously present is simply.

"The wisdom that does it all"

We decided to let ourselves be guided by mysticism and the magic of ancestral healing blessed and clothed by the 4 truths that take us in each drink on a journey through the universes of life and death in search of healing and the maximum state of enlightenment, the Nirvana.
