During the tour, you can learn about the cheetahs' behavior, biology, and the challenges they face in the wild. However, it's important to note that the cheetahs at CCF are non-releasable and cannot survive in the wild due to various reasons. The center also provides information on conservation efforts and options to support their cause.

As part of the tour, visitors can witness cheetah feeding sessions. These take place at 14:00 on weekdays and 12:00 on Saturdays and public holidays.

Overall CCF provides a unique and educational experience for anyone interested in learning more about cheetahs and their conservation.

Watch the Cheetahs live up to their reputation as the fastest animal on earth.
