

At Kronenhof Lodge

Introduction:

Kronenhof Lodge is situated in the far south of Namibia; only 30 kilometers from the famous Duwisib Castle. They offer superb overnight accommodation en route to Sossusvlei and the Naukluft Mountains. 110 km west from Helmeringhuasen and 150 km east from Sesriem via the C27 road.

The lodge features in an area buffered by mountains and the red sand that stretch across the Spergebiëd and Namib Naukluft Park. Rock strewn plains formed by ancient volcanic activity form part of the landscape as far as the eye can see. Panoramic vistas sketch a portrait of a harsh and unforgiving landscape created out of chaos and yet, its beauty is discovered in the eye of the beholder. Kronenhof Lodge is designed to cater to a wide spectrum of travellers. Great care was put into the design and quality of amenities that come with the product. The owners of the lodge are seasoned travellers who know exactly what comforts and amenities guests require during their travels. The Main area and accommodation facilities sit elevated at the foot of a hill to allow for impressive views of the surrounding landscape.

The main complex houses the Reception, Activity Centre, General Dealer and Restaurant with Lapa area where guests can enjoy refreshments and meals or just relax next to the pool.
