

Etosha Safarihoek Lodge - Facts Sheet

Maps & Brief Description

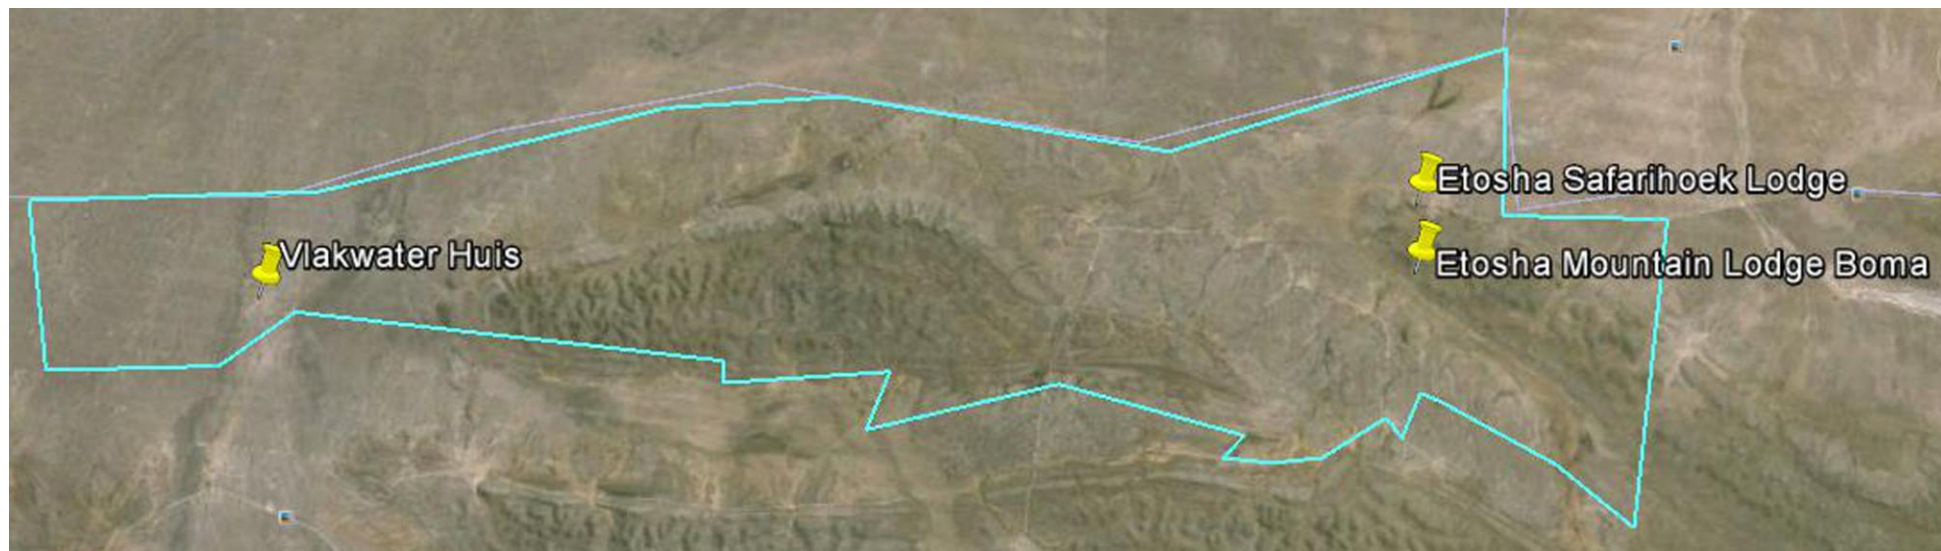

■ Vlakwater House

● Etosha Safarihoek Lodge

● Etosha Mountain Lodge

The newly renovated **Etosha Safarihoek Lodge** is inspired by the nature around it, particularly the invaluable trees found on the entire property. With Etosha Safarihoek Lodge majestically nestle against the furthest mountain range before the flat plains and pans of the internationally known Etosha National Park, it allows you to enjoy the privilege of the first rays of light as the mighty African sun rises over the eastern boundary.

At its slightly elevated position one can admire the sight of the vast Mopani Woodlands below, as well as a clear, intriguing and unobtrusive view of the waterhole where most of the wildlife converge to quench their thirst during the dry season. Observe in awe the beautiful extensive flat plains below, full of life, from the comfort of your room or the comfortable lounge in the spacious 'Lapa'.

One can genuinely enjoy the peacefulness of one's surrounds while listening to all the bird's interesting calls around you, feeling the gentle breeze caressing your face and dipping into the cool waters of the swimming pool on those hot summer days.

The formal dining area provides a warm and inviting atmosphere to enjoy our scrumptious traditional cuisine. Additionally one can retreat to the wine cellar below the main bar area, where we have large glass windows allowing you to feel connected to nature and preserve the memories that you observe, live and gather during your stay with us.

If you prefer the open nights' sky, you would like to relax and absorb your surroundings at the 'Boma'. A cosy African fire can ignite many hours of heart warming bush veldt stories and adventures that will be remembered for a lifetime.
