Serondela Lodge

Chobe river - Namibia

DESCRIPTION: Situated on the Namibian banks of the Chobe river, Serondela Lodge is facing the world renowned Chobe National Park. This will ensure all year round close encounters with free roaming wildlife to our guest.

The 8 rooms situated facing the river will enjoy spectacular views with endless photographic opportunities. Just 17km from Kasane but far enough to ensure exclusivity the guest will be part of the positive impact of sustainable tourism on this incredibly beautiful area which is situated within a very dynamic conservancy. The Lodge have in place a contract between the Kabulabula conservancy and the Micheletti family who already operate 2 other lodges in the Linyanti area of Namibia.

The Lodge is located on a seasonal island. The Chobe/Zambezi flood can be very high and the road from Ngoma to Serondela Lodge is flooded and inaccessible most of the time during the year.

The free transfer from Kasane is on it's self a unique game viewing experience. Pick up time is between 14h00 and 15h00 at Kasane immigration jetty. The transfer will be a sighting boat cruise and it could take from 2 to 3 hours. On departure it will be a direct transfer to Kasane and 1 hour will be the duration. Departure time is fixed for all.

The lodge offers the following activities: 1h30 AM Nature walk or Village visit / 2h30 PM Sundowner cruise / 2h30 AM Boat Cruise / 3h Game drive in the Chobe NP.

Serondela Lodge is certified and rated 5/5 from Namibia Eco Awards.

Wild Waters Lodges is a sustainable tourism orientated umbrella company comprised of 3 award-winning Lodges & Camps (Serondela Lodge, Nkasa Lupala Tented Lodge & Jackalberry Tented Camp). By providing exceptional safari experiences we are able to partially fund the protection and preservation of pristine land and existing wildlife populations, not to mention help create economic independence within local communities surrounding the lodges and camps.

DIRECTIONS: The only access to Serondela Lodge is by boat via Kasane. The free transfer from Kasane is on it's self a unique game viewing experience. Pick up time is between 14h00 and 15h00 at Kasane immigration jetty.

Guest can be collected at the Kasane town immigration river jetty where they will be advised on where to safely park their vehicle. Immigration is close to Department of Tourism office or Marina Lodge.

The Lodge is located in the Namibian side of the Chobe river. Precisely in front of the famous sighting spot in the Chobe NP called Serondela. This is 17km by road from Kasane and 25km by boat.
