# FACIAL Treatments

## *Tensor treatment with Alma Soprano Accord* 85€

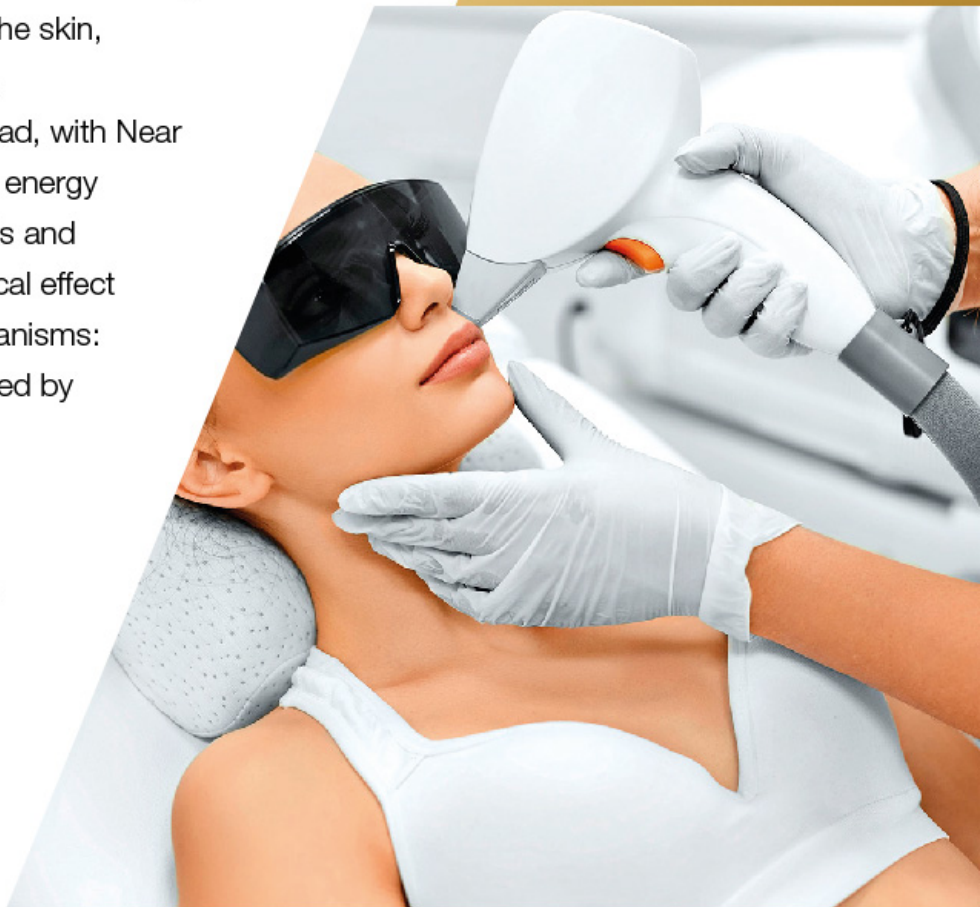

Infrared Near NIR: Head ST With the Harmony XL ST head, you can warm the tissue of the dermis to induce the production of new collagen (neocolagenesis).

A treatment with a series of three to six sessions gives a firmer and fresher appearance of the skin, without pain or invasive procedures.

ST Header-How It Works The ST head, with Near Infrared technology, offers a uniform energy distribution, effectively targeting lipids and connective tissue. It exerts a biological effect on the skin through two great mechanisms:

- Contraction of the collagen induced by the thermal effect.
- Regeneration, repair and dermal reorganization.

The ST head generates a very deep and drastic dermal heat but is comfortable for the patient and does not damage the epidermis.
